PATENT Docket Number: <u>2235USWO</u>

## **AMENDMENTS TO THE CLAIMS**

This listing of claims will replace all prior versions and listings of claims in the application.

## **Listing of Claims**

- 1-18. (Canceled).
- 19. (Currently amended) An acidic cleaning block comprising:
  - a) citric acid; and
- b) at least two acids selected from the group consisting of adipic, succinic, glutaric, and mixtures thereof, wherein the cleaning block contains at least 3% and up to 20% by weight of water based on the cleaning block as a whole, and the cleaning block is not a paste.
- 20. (Canceled)
- 21. (Canceled)
- 22. (Canceled).
- 23. (Previously presented) The acidic cleaning block of claim 19, wherein the ratio of citric acid to the adipic, succinic, and glutaric acid is (20 to 60): (20 to 60).
- 24. (Previously presented) The acidic cleaning block of claim 19, further comprising an additional acid selected from the group consisting of lactic acid, phosphoric acid, alkyl benzene sulfonic acid, alkanesulfonic acid having 1 to 4 carbon atoms in the alkyl chain, and mixtures thereof.
- 25. (Previously presented) The acidic cleaning block of claim 19, further comprising lactic acid.

Application No. 10/536,546 Amendment Date June 4, 2008

Docket Number: 2235USWO Response to Office Action of February 4, 2008

PATENT

26. (Previously presented) The acidic cleaning block of claim 24, wherein the ratio of citric

acid, to the adipic, succinic, and glutaric acid to an additional acid is (20 to 60): (20 to 60): (10

to 30).

27. (Previously presented) The acidic cleaning block of claim 19, further comprising at least

one surfactant selected from the group consisting of nonionic, anionic, cationic surfactants, and

mixtures thereof.

28. (Previously presented) The acidic cleaning block of claim 19, wherein the cleaning block

is surrounded by a plastic capsule.

(Previously presented) The acidic cleaning block of claim 28, wherein the plastic capsule 29.

is substantially polyethylene.

30. (Previously presented) The acidic cleaning block of claim 19, wherein the acidic

cleaning block remain solid up to temperatures of 35 °C.
